

Owner Accounting Solutions That Work.

Owner Relations Specializes in robust owner accounting and owner portal software solutions for fractional and whole ownership condominium hotels, branded residence, HOA's, residence clubs, and property management companies. Our software is tailored to meet the unique requirements of each property type, ensuring efficiency and accuracy.

Strategic Partnerships.

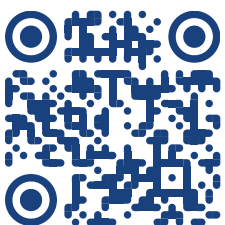

Owner Relations has built strong relationships with the leading Property Management Systems (PMS) which allows for seamless integration between our solutions and theirs.

We make it easy to add condo hotel functionality without having to change the current PMS. Owner Relations will do the work behind the scenes to provide a world class owner accounting system.

Our Clients.

Our clients operate in a wide range of settings including island resorts, beachfront resorts, four season, mountain resorts, golf resorts, destination spa resorts, city center hotels and wine country properties.

We have a global network across Canada, the USA, Mexico, the Caribbean, Europe, and Asia who currently use our solutions to meet their unique requirements.

Our Solutions.

Owner Accounting Solutions

Our owner accounting solutions are designed specifically for Condo Hotels, Fractional Hotels, Branded Residences, Residence Clubs, and HOA's that will enable you to meet your accounting requirements and provide your owners with accurate financial statements.

Owner Portal

Our owner portal allows you to post information online via a branded website. Benefits include fewer phone calls, reduced mailing costs, and increased owner satisfaction. Your owners will be able to quickly view their owner statements online, download documents, submit reservations and information requests.

1099 Tax Filing Module

Forge ahead with our 1099 module that automates data collection, generates accurate IRS-compliant forms, and enables secure e-filing in just a few clicks—reducing risk and saving hours of manual work. For properties in Hawaii, we also simplify GET and TAT filing, ensuring compliance with local requirements while streamlining your entire tax process.

Fractional Property Software

Our floating and fractional property software solution supports the full range of mixed fractions. Any unit can be divided into any number of fractions, and unique contracts with unique terms can be assigned to individuals fractions or fraction groups.
